

One of Mr. Frank N. Meyer's plant shipments ready to be sewn up in cloth and dispatched to Washington from Chengchow, Honan, China. Collectors often do not realize that many species of plants which are not bearing seeds when they are found can be transported to America in the form of cuttings provided they are carefully wrapped up in slightly moist sphagnum moss and covered with waterproof oil paper. Specially prepared directions for sending cuttings will be sent to foreign correspondents on application. Photo. No. A 12, by F. N. Meyer, Feb. 25, 1914.
